This skill drills course teaches the mechanics of marksmanship and the intuitive response of point (defensive) shooting. Classroom SIRT gun exercises give way to live fire on the range, as we work to help you perfect your form, get comfortable with the act of shooting, and understand how a defensive encounter is vastly different from square range shooting. Whether you have a CCW or plan to take advantage of Florida's "constitutional carry," this is a great class to begin practicing defensive shooting.
