

Introduction to Shooting for Ladies

We will be reintroducing a specially developed program, based on and adapted from the National Rifle Association program – Women-On-Target. It is designed specifically to familiarize ladies with firearms who may have them in their home or have relatives who shoot, but who are not experienced themselves and wish to become more knowledgeable.

Participation in the shooting experience is enthusiastically recommended but is not required to attend the instructional presentation. The range experience is the best way to become familiar with firearms and provides an opportunity to fire both low-recoil rifles and handguns.

As with all of our educational programs, safety is stressed and practiced. Hearing and eye protection is required as it is on all ranges. The range experience will be conducted outdoors on a covered firing line. Shoes that completely enclose feet are required. Appropriate dress is required.

Beginners are most welcome as are those with some experience who wish to become more completely informed.

Check the club calendar for scheduling. For more information, contact Our Public Relations Chair at PR@FlaglerGunClub.com or by phone at the club number (888) 823-4251 Option 1
